\* All our meats, sauces and sides (except the macaroni salad, buns and bagged chips) are gluten free.

\* Meat portions do not allow for guests to take two meats or an excessive amount of one meat, as this will cause a shortage of food. It is a common issue we see and want you to be aware of it prior to ordering. The Host is responsible of ensuring this does not happen. Meat by the pound is available. Prices can be found on our current menu, which is located on our website. This is highly recommended if you think you will have big eaters and won't be able to regulate the meat.

We are open to special requests, so please don't hesitate ask.

We appreciate the opportunity to serve you!
